EXECUTIVE SUMMARY

Polypackaging Group is engaged in the Manufacture and Trading of flexible packaging material.

Manufacturing is carried out under the name and style of Polypackaging Industries (Pvt.) Ltd. in the North Western Province. providing high quality & innovative flexible packaging solutions for a period of over 27 years.

Having Started in the year 1994 as the only establishment in the province to manufacture polythene and polypropylene film in roll form, employing 02 extruder machines and a total staff of just 10, today we have the strength of supplying varied forms of flexible packaging material.

We have gained technological ability in the form of machinery and highly skilled human resources to supply printed & multi layered laminated flexible packaging material using Roto Gravure and Flexographic printing technologies with various types of material combinations to meet all flexible packaging requirements.

Trading wing is functioning under the name and style of Megapack Trading Co. Ltd and Lak polymer Trading Co. Ltd.

The total workforce engaged in the manufacturing operations at present, under Polypackaging Industries (Pvt.) Ltd. is around 140. Manufacturing is a 24 hour operation functioning in 3 shifts round the clock and 7 days a week.

Megapack and Lak Polymer employ 30 employees in the trading functions at seven trading centers spread out in Kurunegala (03 centers), Kegalle, Kuliypitiya, Anuradapura and Polonnaruwa.

The Group has expanded itself to a workforce of around 160, The capital employed is in the region of Rs 600M. Annual turnover of the group is Rs. 1250M which has shown a gradual gain over the years.

We make a contribution of nearly Rs.95 MN annually, towards the government coffers as statutory payments and taxes.

As a result of our continuous efforts to enhance our standards of quality, we have achieved ISO 22000 : 2005 (Food Safety Management System with HACCP) & ISO 9001 certification. As a preemptive measure in facing the covid -19 pandemic situation, we have obtained Covid -19 safety Management Certification of SLSI.

Consistency in quality and service is the core strength of the Company.

Our packaging can give customer products a distinctive advantage in the face of competition. We focus at constantly updating and upgrading our range of products with modernized technology. Our packaging materials are designed and manufactured to suit customer products' presentation, protection and food safety requirements and enhance moisture and oxygen barrier properties, provide excellent sealing strength, good clarity, high puncture resistance, enhanced mechanical properties etc. in the most cost effective manner.

We offer additional services with no cost on customer total packaging requirements from design and artwork of the package, consultation for appropriate machinery & equipment, providing knowledge on the latest packaging materials.

Polypackaging, originated and nurtured in a provincial environment away from the hustle and bustle of the city, the Company culture and the quality of the employees exhibit simplicity and genuineness in their service and considers service, above self in dealing with the clientele.

Being mindful of the scale of economies of the rural cottage industrialists in the area of operation, Polypackaging has been always ready and happy to serve small & medium scale cottage industrialists.

As a Company aware of its social responsibility and obligations in preserving the environment, we engage ourselves in re-cycling of waste polythene material in the NWP.
